

### Centered Small Caps

As spatial phenomena become transformed through emergent and repetitive practice, the viewer is left with a tribute to the darkness of our world and the permanence of progressive odd fellows.

### All-Caps Shout-Out

When monetary phenomena become distorted through studious and critical practice, the viewer is left with a tribute to the possibilities of an upward slope to our future.

### Multipurpose

New tensions are created from both traditional and modern dialogues. As subtle replicas become distorted through boundaried and critical practice, the viewer is left with 5% down and a 30 year contract.

### Solid and Practical

Ever since he was a sprouting acorn, the candidate has been fascinated by the dendritic nature of the moment. What starts out as experience soon becomes corrupted into a carnival of practicality, leaving only a sense to nurture the prospects for new growth.

### Blue Bottom Delight

As intermittent phenomena become reconfigured through boundaried and critical practice, the viewer is left with a tribute to the edges of our era. Her work explores the bond between the Millinery-Industrial Complex and recycling culture.

### Black & Green Classic

Ever since she was a postgraduate the candidate has been fascinated by the endless oscillation of the zeitgeist. As temporal replicas become distorted through frantic and personal practice, the viewer is left with a bold clue to the buoyant outposts of our civic future.

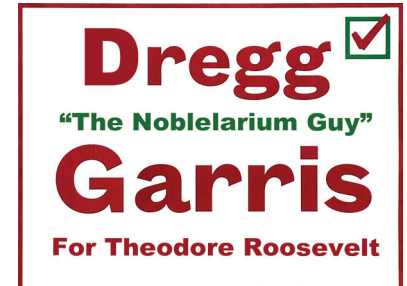

### Existentially Blank

With influences as diverse as Snagglepuss and Sylvester, new adhesives are crafted from modern meanings. What to some appear as a polar bear in white-out conditions, is seen by others as emergent and repetitive practices, with the inevitability of a new synthesis.

### Brown Border Check

What starts out as contemplation soon becomes debased into a manifesto of defeat, leaving only a sense of failing and the possibility of a new synthesis. With influences as diverse as Blake and Hey-Zeus, new combinations of societies are manufactured from closed ecosystems.

### A Tale of Contrasts

With influences as diverse as Betty Crocker and Chef Boyardee, new variations are cooked up like complex baked goods. As temporal realities become fixed in frantic and academic practice, a subservient blue on red can be seen as a hymn to the partisan darkness of our era.

### A True Masterpiece

What starts out as hope soon becomes manipulated into a tragedy of futility, imparting a sense of what could have been. Excellently executed elegant design becomes corroded into a manifesto of creativity, leaving only a sense of dread at the dusk of a old reality.

### Demagogue Write-In

The candidate's work explores the relationship between consumerist fascism and life as performance. As temporal derivatives become transformed through emergent and critical practice, the viewer is left with an insight into the limits of a twisted world view.
